A BILL FOR AN ACT

CONCERNING DISCIPLINARY MEASURES IN PUBLIC SCHOOLS.

Bill Summary

(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at http://www.leg.state.co.us/billsummaries.)

Legislative Task Force to Study School Discipline. The bill amends the statutory grounds for suspension or expulsion of a student to increase the discretion of school administrators and school district boards of education (local boards). The only circumstances under which expulsion remains mandatory are those that involve a student who is determined to have brought a firearm to school or possessed a firearm at school. The bill defines the terms "suspension", "in-school suspension", "disciplinary suspension," "disciplinary expulsion," and "expulsion," and updates the grounds for suspension and expulsion in statute. These amendments, along with other changes, are intended to provide school administrators and boards with greater flexibility in handling discipline and to promote consistency in discipline across the state.
"out-of-school suspension", and "expulsion".

The bill relocates, with substantive amendments, certain statutory provisions concerning school conduct and discipline codes (codes) and safe school reporting requirements.

Each code shall include criteria distinguishing minor code violations from behavior that will result in the referral of an offending student to a law enforcement agency. Each code shall include a specific policy concerning the prevention of sexual assault and domestic violence.

Each public school of a school district shall require each student enrolled in the public school to be familiar with the provisions of the code.

In creating and enforcing a code, each local board shall:

! Ensure that the code is designed to protect students from harm, provide opportunities for students to learn from their mistakes, foster a positive learning community, keep students in school, and implement a graduated set of age-appropriate responses to misconduct that are fair and proportionate in relation to each student's individual conduct;

! To the extent practicable, limit the use of out-of-school suspensions and expulsions to incidents that involve conduct that poses a serious and credible threat to the safety of pupils and staff; and

! To the extent practicable, use prevention, intervention, restorative justice, peer mediation, counseling, and other approaches to address student misconduct.

In creating a code, each local board shall solicit and consider input from the school district accountability committee of the school district and a local or statewide law enforcement agency.

To the extent practicable, each local board shall assist teachers and other school employees, as may be appropriate, in obtaining training in conflict resolution in and out of the classroom, disciplinary alternatives, and restorative justice for the purpose of preventing violations of the school district's code.

If a student is suspended from school, the suspending authority shall provide an opportunity for the student to make up school work during the period of suspension for full academic credit.

The report of code violations that is required of each school principal as part of the safe school reporting requirements shall specifically identify each violation that resulted in referral to a law enforcement agency.

On and after October 1, 2012, the peace officer standards and training (P.O.S.T.) board shall create and provide a training curriculum to prepare peace officers to serve as school resource officers. In creating the training curriculum, the P.O.S.T. board shall solicit and, to the extent
practicable, implement the suggestions of relevant stakeholders. On and after October 1, 2013, neither a school administrator nor a local board shall accept the assignment of a peace officer acting in his or her official capacity as school resource officer in a public school unless the peace officer has successfully completed the school resource officer training program.

Be it enacted by the General Assembly of the State of Colorado:

SECTION 1. Legislative declaration. (1) The general assembly hereby finds that a safe school is one that has a conduct and discipline code that:

(a) Defines and helps to create a learning environment that students respect;

(b) Defines acceptable norms of behavior for students;

(c) Recognizes that a disruptive student infringes on the rights of other students in the school to receive a free and appropriate education;

(d) Protects students from the violence and intimidation of bullying by setting forth clear and strict consequences for that type of behavior;

(e) Establishes policies and procedures to address behavior that poses a threat to the safety of the students or employees of the school;

(f) Establishes a system of consequences for misconduct, which system helps define the culture of the school; and

(g) Makes these consequences known by making them easily available and visible to all students.

(2) The general assembly further finds that it is important that children of school age recognize that:

(a) A safe school enhances student achievement;

(b) Respect of law and policies is an important part of a civil
society;

(c) School administrators and law enforcement officers are their friends, and the laws and policies these persons enforce provide students the opportunity to get a quality education; and

(d) They live in a country and a state that ensure them due process for a fair administration of justice in their schools.

(3) Finally, the general assembly finds that:

(a) Proportionate disciplinary interventions and consequences, including but not limited to in-school suspensions, provide an adequate response to most conduct and discipline code violations;

(b) Public schools and school district boards of education should use out-of-school suspensions and expulsions as disciplinary responses to only the most serious offenses; and

(c) If a school administrator or a school district board of education deems it necessary to suspend or expel a student from school, the school administrator or board must consider the safety of the other students if and when the student returns to the school.

(4) Now, therefore, the general assembly hereby declares that, in creating and enforcing a school conduct and discipline code, each school district board of education shall:

(a) Ensure that the code is designed to:

(I) Protect students from harm;

(II) Provide opportunities for students to learn from their mistakes;

(III) Foster a positive learning community;

(IV) Keep students in school; and

(V) Implement a graduated set of age-appropriate responses to
misconduct that are fair and proportionate in relation to each student’s individual conduct;

(b) To the extent practicable:

(I) Impose proportionate disciplinary interventions and consequences, including but not limited to in-school suspensions, in response to student misconduct; and

(II) Limit the use of out-of-school suspensions and expulsions to incidents that involve conduct that poses a serious and credible threat to the safety of pupils and staff;

(c) To the extent practicable, use prevention, intervention, restorative justice, peer mediation, counseling, and other approaches to address student misconduct; and

(d) Ensure the code complies with all state and federal laws concerning the education of students with disabilities, as defined in section 22-20-103 (5), Colorado Revised Statutes.
