## CENSUS NEWS

An accurate Census count is of monumental importance, especially to communities of color. As the 2020 population numbers will shape how political power and over 800 million dollars will be shared in the U.S. over the next ten years. The population count will determine the number of congressional seats and Electoral College votes, and how federal funding is distributed for schools, roads, bridges, Medicare, and other public services in local communities, ensuring that vulnerable and marginalized communities are counted.
