

2020 Census

It's Not Too Late to Be Counted!

National Census Day, April 1, has passed, but that doesn't mean the Census is over. In fact, it's been extended to August 14.

There are still hundreds of thousands of Mississippians and millions of American households that still need to be counted. By being counted, the government knows where to send federal dollars and how much to send. Those dollars fund needed programs like Medicare and public schools. Could your community benefit from millions of federal dollars? Then make sure you get counted!

Go to www.2020census.gov now and complete your survey online and in the safety of your own home!
